Certificate of Completion

This is to certify that Marwan Salem has successfully completed the course:

Citizen Data Science

Conducted by Combient

This program required 100+ hours of intense study, individually and in project teams, consisting of working on a Scania Data Science use case, completing self-studies and assignments, and attending multiple days of instructor-facilitating sessions.

Course Highlights:

- Introduction to Data Science
- Supervised and Unsupervised Learning
- Models for Learning
- Applying Data Science in Practice
- Models for Learning
- Hypothesis Testing
