Certificate of Completion

This is to certify that Zitouni Saci
has successfully completed the course:

AI Neural Networks, Part 2: Practical Components

Conducted by Combient

This is an 18-week professional development journey combining hands-on coding, mentorship and applied use case work.

The program covered Neural Network Architecture and Large Language models (LLMs). Participants developed the ability to understand, train, evaluate and apply neural networks-based solutions to real-world business challenges, and to recognize the opportunities and limitations of deep learning techniques.
